

IN THE CLAIMS

Claims 1-4 are pending

Claims 2-4 are cancelled.

Claim 1 is amended herein.

The status of the claims is as follows:

1. (Currently amended) An eyelid enhancement kit comprising:
 - a package divided into a first compartment and a second compartment;
 - a first tray received in the first compartment and having a first recess and a second recess respectively defined in a top face of the first tray and a cover covering the first tray;
 - a first eyelid mask and a second eyelid mask sandwiched between the first tray and the cover and respectively received in the first recess and the second recess of the first tray;
 - a second tray received in the second compartment and having a third recess; and
 - an eyelid brush received in the third recess,

wherein the first tray further has a first cutout defined in the top face of the first tray to communicate with the first recess and a second cutout defined in the top face of the first tray to communicate with the second recess to facilitate accessing the first and second eyelid masks,

wherein the cover has a first protruding area formed on a bottom face of the cover to correspond to the first recess and a second protruding area formed on the bottom face of the cover to correspond to the second recess so that the first protruding area and the second protruding are able to be respectively received in the first recess and the second recess to securely sandwich the first eyelid mask and the second eyelid mask inside a combination between the first recess and the first cutout and a combination of the second recess and the second cutout,

wherein the eyelid brush has a rubber cap formed on a distal end of the eyelid brush,
bristles formed on one side of the eyelid brush and teeth oppositely formed relative to the
bristles on the eyelid brush.
